

# Night Cream

A rich yet lightweight night cream that works as your body rests

## Why night cream?

Skin cells replace themselves faster than any other cells in the body. The peak hours for cell reproduction occur while you are sleeping, between midnight and 4:00 a.m. It is during this time when your body refreshes itself against the stresses of the day. Because this is when new cells are born, it is imperative to use a night cream that is enriched with vitamins and nutrients to help lift away dry surface cells.

NouriFusion™ Night Cream helps lift away dry surface cells and enrich the skin with all the vitamins and nutrients it shouts out for during the night. So that customers wake up to smoother, softer more radiant skin, every day.

## A good night's sleep

Sleep isn't just beneficial to your body, giving it time to rest and recover, it also allows skin cells to rebuild and renew themselves. Encourage customers to get eight hours sleep a night if they can, for vibrant, healthier looking skin.

## Sleeping in the right position

Sleeping on your face can cause sleep wrinkles and sleeping in the same position for many years can crease the skin permanently\*. Sleeping on your back is the best position for avoiding additional wrinkles on your face.

#2516

## Key Benefits

- Hydrates and refreshes the skin
- Softens and smoothes
- Suitable for all skin types
- With Vitamins A, C and E

## Key Ingredient Properties:

### Vitamin A

Helps improve moisture content and lift away dry surface cells.

### Vitamin C

A powerful antioxidant, vitamin C is a key component in collagen production. It has been shown to help reduce the appearance of blemished skin and support the natural defences of the skin.

### Vitamin E

Helps to protect the skin's moisture barrier and promotes the well being of the skin.

### Hydrolite 5

Anti-microbial and excellent skin moisturiser

### Pheohydrane P

Derived from a marine source, provides long-term moisturisation

## Ingredients

Vitamins A, C and E, Sunflower Seed Oil, Olive oil and fruit, Panthenol, Hydrolite 5 and Pheohydrane P

USAGE: Use every evening, gently massaging onto skin after cleansing and toning.
